

CoreIQ AI Prompt Pack

20 production-ready prompts — coreiqcreate-ten.vercel.app

1. Agent system prompt

You are a [ROLE] AI agent for [COMPANY]. Your task is [TASK]. Always respond in [FORMAT]. Never [CONSTRAINT].

2. Rough idea → spec

Convert this rough idea into a technical spec: [IDEA]. Include: recommended stack, timeline estimate, top 3 risks, open questions.

3. Automation mapper

Map this manual process: [PROCESS]. For each step identify: can it be automated? What tool? What's the trigger?

4. Brief generator

Turn these rough notes into a structured project brief: [NOTES]. Include: objective, success metrics, scope, out of scope.

5. Competitor gap analysis

Analyse [COMPETITOR] vs [PRODUCT]. Find 3 gaps we can exploit in the next 90 days with evidence.

6. Content repurposer

Repurpose this [CONTENT_TYPE] into: a Twitter/X thread, a LinkedIn post, a 60-second video script.

7. Cold outreach DM

Write a cold DM for [OFFER] targeting [AUDIENCE]. Max 3 sentences. Lead with their problem, not your product.

8. SOT document

Read this conversation and write a Source of Truth document: [CONVERSATION]. Include: decisions, state, next actions.

9. Debug assistant

Debug: [CODE/ERROR]. Explain the root cause, provide the fix, add a test that would catch this in future.

10. API design

Design a REST API for [FEATURE]. Include: endpoints, methods, request/response schemas, auth, error codes.

11. Buyer persona

Build a buyer persona for [PRODUCT]. Include: job title, goals, fears, objections, where they spend time online.

12. Meeting summary

Summarise: [TRANSCRIPT]. Output format — Decisions: / Actions (owner, deadline): / Open questions:

13. A/B test variants

Write 3 headline/CTA variants for A/B testing [ELEMENT]. Vary: emotional trigger, specificity, urgency.

14. Risk audit

Audit this plan: [PLAN]. List top 5 risks with: likelihood (H/M/L), impact (H/M/L), mitigation.

15. Webhook spec

Write the webhook payload spec for [EVENT]. Include: example JSON, required fields, error handling.

16. Lead qualifier

Given this inquiry: [TEXT]. Rate fit 1-10, identify primary intent, suggest ideal next response.

17. Handover doc

Write a handover document for [PROJECT]. Include: current state, completed, remaining, blockers, next action for new node.

18. Funnel map

Map the buyer journey for [PRODUCT]: Awareness → Interest → Decision → Action. Suggest 2 content pieces per stage.

19. Price anchor

I want to charge [PRICE] for [OFFER]. Write 3 framing statements that make this feel like the obvious choice.

20. Prompt chain

Build a 3-step prompt chain for [WORKFLOW]: Step 1 collects [INPUT], Step 2 processes to [INTERMEDIATE], Step 3 outputs [FINAL_FORMAT].
